

5 steps to clean the living room of the house

With these ideas for the house, discover how to clean at home with just 5 steps that will help you save time and efficiency. Prepare your cleaning plan.

1. Make a list of how to clean at home with the main cleaning tasks by environment and stick the adhesive sheets in visible places.

2. A good idea for the house is to carry the cleaning supplies in a basket. Don't waste time wandering around!

3. Ventilate the house before you start cleaning it. If you do it afterward, you'll let the dust in again. You will see how cleaning at home is easier if you follow the steps in order.

4. This is the key to how to do a clean at home: start from the top down, first the lamps and cabinets, and last the floors. So you won't waste time going over the cleaning.

5. Do a maintenance task every day. It will save you extra time and effort.
