

How to remove deodorant stains from dark clothes

Do you often wear dark clothes and don't know how to remove deodorant residue when it gets stained?

Some tips on how to wash black clothes so that they are impeccable.

1. Lay out the garment on a flat surface.

2. Sprinkle baking soda on the affected area, then add a glass of white vinegar and rub this paste on the stain.

3. Finally wash in normal cycle without forgetting to put Softener
