

How to remove paint stains?

Sometimes it's hard to remove acrylic paint stains from clothes because we don't know how to clean them and we let the clothes get lost. In this article we will tell you about the necessary care to recover your clothes.

Step 1: If the stain is dry, the first thing you should do is scrape it off with a knife. You must scrape delicately so as not to break the garment. You can also use a spoon.

Step 2: Then mix a teaspoon of salt with white vinegar and a splash of ammonia.

Step 3: Dip a toothbrush in the mixture and rub the stain several times. This trick will help you remove the stain.

Step 4: Submerge the garment in hot water and leave it to soak overnight.

Step 5: To finish, wash the garment normally and add Suavitel to eliminate the smell of vinegar and ammonia and leave a delicious scent.

When you stain clothing with acrylic paint, act as quickly as possible to remove it. The more time passes, the more difficult it will be to remove it.
