

What clothes to wash with hot, warm and cold water

We know how to wash clothes, but not all of us know the water temperature to improve the washing results. Discover with us how to wash clothes properly.

What to wash with hot water: Towels, clothes lines, thick white fabrics and fabric curtains.

What to wash with warm water: Jeans, jackets, very dirty and not very delicate clothes.

What to wash with cold water: Colored garments, cotton, lycra, silk, delicate garments and fabrics that can shrink.
